

# Alabama Paperless Tax Filing and Payment System

## DID YOU KNOW?

Starting Oct. 1, 2003, business taxpayers filing certain state and local tax returns (state sales, state lodgings, state use, and state rental tax returns) with the Alabama Department of Revenue (ADOR) **MUST file their returns electronically** unless they have prior permission from ADOR.

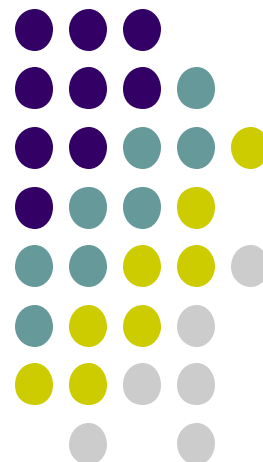

Beginning with the October 2003 state and local returns, due November 20, 2003, business taxpayers will choose either to file their taxes electronically using the Internet or file their taxes by telephone using the department's new voice-activated telephone filing system.

The department's free paperless filing system also includes all county and city sales, consumer's use, seller's use, lodgings, and rental taxes administered by the ADOR.

The Associations listed to the right have joined together with ADOR to have seminars around the state to teach business people how to use the new paperless system. There is no cost to attend, but you must register because space is limited. A registration form is enclosed listing the dates and sites of each meeting.

We also have available VHS tapes of the presentation made by the Department of Revenue. An order form is enclosed should you wish to purchase a video instead of or in addition to attending the seminar. Tapes will also be available at each location.

Please make every effort to attend one of these seminars. Electronic filing will be mandatory and this seminar will teach you exactly how to do it!
